Sakai: State of the Community Sakai Open Academic Environment Ja-Sakai Conference 2011

Ian Dolphin

Sakai Foundation Executive Director - <u>iandolphin@sakaifoundation.org</u> March 2011

Overview

- Introducing the new Sakai Executive Director
- Background
- Sakai Collaboration & Learning Environment
- **Sakai Open Academic Environment**
- Sakai **Foundation** current priorities
- Your contributions, questions and comments

Sakai Project & Foundation 2003-5

- MIT, Stanford, Michigan, IU, UC Berkeley, Foothill CC + Mellon Foundation funding
- Collaboration & Learning Environment
 - Not just an LMS Research, Admin Collaboration
- A system for the **Higher Education Enterprise**
- A **collegially governed** community
- **Foundation** registered as US not-for-profit

Sakai CLE Broad Capabilities

- A flexible framework and toolset to support
 - **Course** Management
 - Ad-hoc work groups
 - **Research** collaboration
 - Portfolios OSPI
 - Library services integration Sakaibrary

A Small Sample of Sakai ...

Current estimate of adoption: 340

UC Berkeley - 50,000 Unique Users - 4000 concurrent - 3000 Course sites per semester - 5000 Project Sites

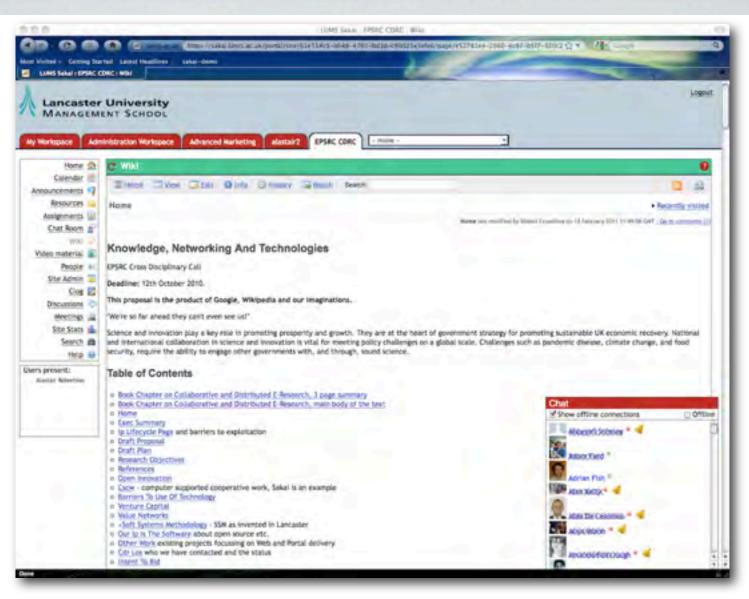

Indiana U - 92,000 unique users per week - Course sites 30,000 per semester - Project sites 18,506 -Portfolio sites 355

Lancaster U - 716 Sites, 197 externally facing

Oxford University - 2483 Sites - 17300 Unique users

Sakai CLE 2.8 Update

Sakai CLE 2.8 Release

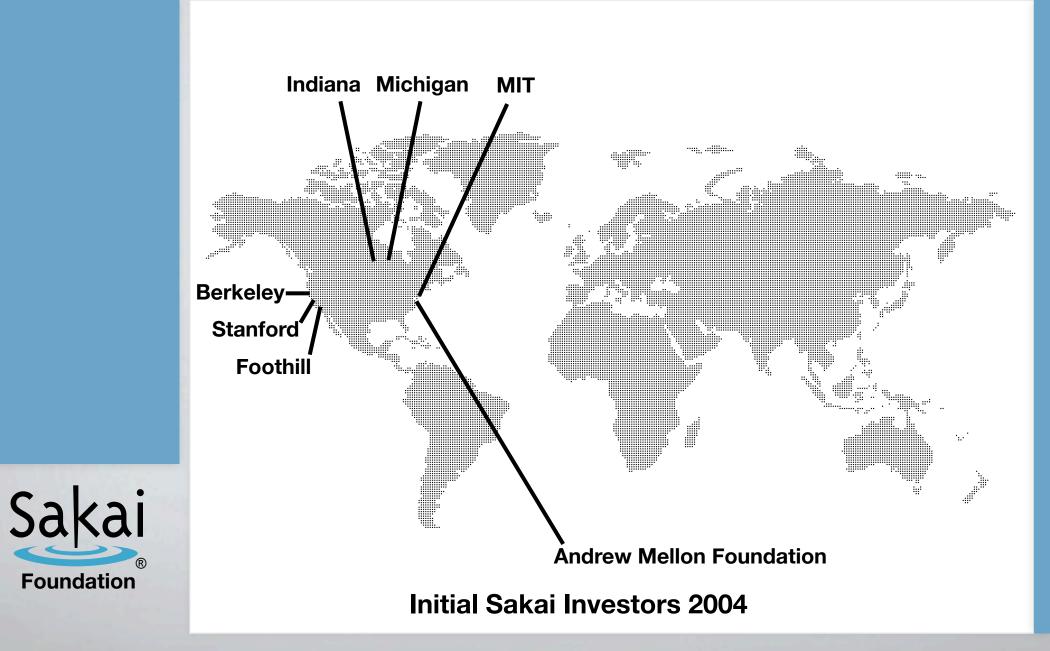

- 60+ General feature enhancements or additions
- Shared i8n properties in /config
- Adds considerable Basic LTI support
- Enhancements to mobile device support
- Release within weeks (April)
- First release shepherded by TCC

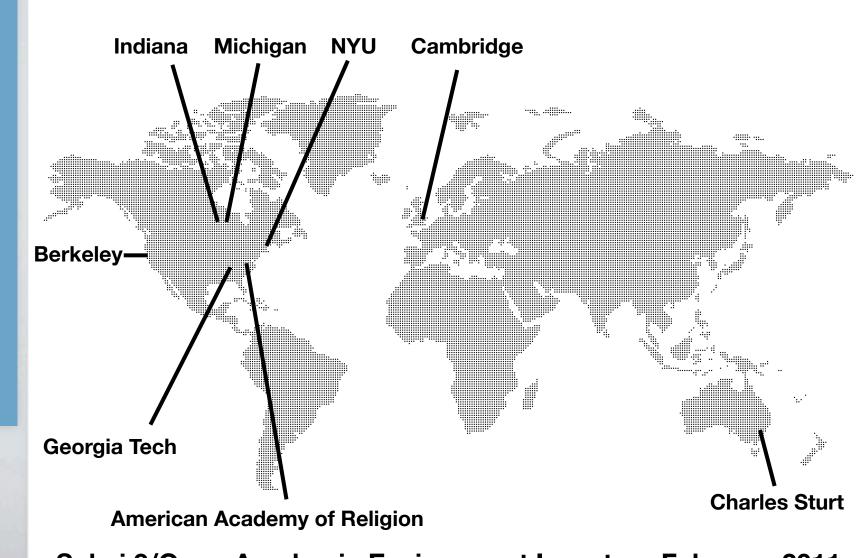

https://confluence.sakaiproject.org/display/REL/sakai-2.8.0+new+features

Sakai Open Academic Environment

Sakai 3/Open Academic Environment Investors February 2011

Sakai

Foundation

What's **Changed** in the last 8 years?

- .. The **success** of open source
- .. User **expectations** of the software experience
- .. Technologies and architectures
- .. Technology **uses** the **social** explosion
- .. Economic drivers demands to do more with less
- . Increasing structural complexity of HE -
 - x-disciplines, partnerships, remote campus

Sakai OAE **Design** Goals

- Networking people and groups; easy to announce and locate on a global or local scale
- **Sharing** one to one/many without being members of common workspace.
- **Composable workspaces**. Tools and resources exposed on pages via placement of tool widgets.
- Openness and permeability: navigable public access, access and use external resources + vv

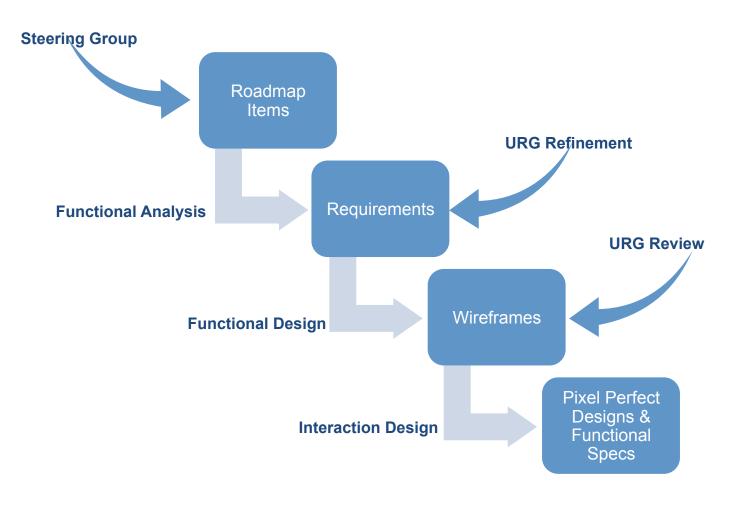

Sakai OAE Managed Project

- Building on two years of experimentation
- Formed at June 2010 Denver Sakai Conference
 - Cambridge, NYU, Charles Sturt, Berkeley, Indiana
- Joined by
 - American Academy of Religion, U Michigan
- Project Manager -
 - Alan Marks <u>alanmarks@sakaifoundation.org</u>

Continuous User Engagement

All artifacts are published and announced for community review at all stages!

Sakai Open Academic Environment 0.1 Pre-Release: Academic Networking

- Interdisciplinary, inter-institutional, inter-campus needs
- Apply social networking to academic context
 - Add, edit, display, search academic profiles
 - **Control** who/what locates/connects
 - Institution, State/Territory, National, Discipline/s
- Based on OpenSocial specification http://www.opensocial.org/
 - Seeking partners to test interoperability
 - Examples from New York University, AAR
 - NYU Sakai Vision Statement

http://confluence.sakaiproject.org/display/MGT/NYU+Sakai+3+Vision+Statement

The Sakai Open Academic Environment (OAE) is a new vision of the Sakai enterprise software developed for a community of learners, leachers, scholars, and researchers. Sakai OAE uses core concepts of social networking, flexible authoring and content sharing, openness and permeability, and cohesive tearning experiences to support academic endeavors. Limited, early-adopter pilots of Sakai OAE will be in use starting November 2010. The final goal is a full release by July 2011 that the community can embrace, and to that end the Sakai OAE project will actively engage with other groups in the Sakai community. You can find out more about Sakai OAE here.

Sakai OAE Hybrid Mode

- Enabling integration of Sakai 2 and Sakai 3
 - Initial focus on surfacing Sakai 2 tools in Sakai 3
 - Based on IMS Learning Tools Interoperability (LTI)
- Currently being defined more completely ... eg
 - CSU; S2 tool populates page in S3
 - CSU; S2 tool populates widget in S3

https://confluence.sakaiproject.org/display/3AK/OAE+Home

Current State of OAE

- Reconfigured teams around **agile approach**
- Significant server side refactoring
 - Performance issues with Jackrabbit in multiple author, secure environment at scale
- Reworking roadmap for June/July release
- Details at

https://confluence.sakaiproject.org/display/3AK/Sprint+Planning

Personal Reflections

- Existing Sakai CLE is **widely deployed** as an LMS
- Existing LMS will not disappear overnight
- Sakai CLE will **continue to be improved**
- Hybrid more important than initially thought
 - **May** ultimately mitigate "big bang" transitions
 - **May** wrap Sakai 3 services around other LMS
- Footnote: tools to support research portlets

State of Foundation and Priorities

Foundation Membership

86 Education Institutions

- Higher Ed, Community College, School System
- Diversity; public, private, large, small, research

23 Commercial Partners

- Most recent member Kanematsu Electronics
- rSmart/SunGard HE relationship
- Strong signs of an emerging healthy ecosystem

Sakai Foundation **Board**

- Not more than 11, not less than 7 members
- **3** year terms, 2 term limit
 - Josh Baron, Marist College (Chair) Ian Boston, University of Cambridge/CARET Chuck Severance, University of Michigan Maggie Lynch, College of the Redwoods Michael Feldstein, Oracle (moving to Cengage) John Norman, University of Cambridge/CARET Stephen Marquard, University of Cape Town Nate Angell, rSmart

Organization, Mission, Priorities

- Aug 2010-Jan 2011 repair financial imbalance
- Foundation as facilitator, enabler **NOT** controller
- Three priorities (... not the *only* three...)
 - Resource aggregation and predictability
 - Example work areas: Internationalization and Mobile
 - Jasig and Sakai towards a "better umbrella"

The Sakai Foundation is not a software company [Although some of our best friends are] We are facilitating a community

Resource Aggregation

- **Larger**, more **diverse** community
- F2F meetings less frequent
- **Danger** of dispersed and diluted effort
- Online brokerage register development interests
- Revitalise managers list
- Resource holders forum at LA, European Conference

Mobile

- Mobile diverse work across community
- Requests for more coherence
- U Florida drafting proposal
 - Small set of institutions review
- Publish via Confuence (within weeks)
- Community discussion

Internationalization

- Incremental improvement in 2.8
- **BUT** current capability hindering adoption
- Particular interest in France, Spain, Japan
- Articulate **clear objectives**
- **Gather** and **organize resource**
- Integrate with development processes
 - Mentoring, boot-camps, etc

Jasig & Sakai

- The "merger" word ... (shh... we don't use it)
- Bringing together **Foundations**, **not** projects
 - But seeking synergy between projects over time...
- Sharing infrastructure
 - Legal, licensing, administrative, technical, conference
 - Taking these objectives seriously *internationally*
- International Communities implications
